SPECIAL SUMMER PROGRAMS BEGIN THIS WEEK AT UM

MISSOULA--

A special program of seminars, workshops, conferences and courses at the University of Montana is providing graduate and undergraduate credit for practicing teachers and for those seeking teacher education.

The seminars are featured in the School of Education. One entitled "Analysis of Pupil-Teacher Interaction," running June 23-July 11, is introducing teachers to a special technique for coding and analyzing teacher-pupil behavior and student reaction to teaching methods.

A seminar entitled "Research Utilizing Problem-Solving Processes " is designed to increase teacher teamwork skills and to explore sociological methods for diagnosing classroom conditions. It also began Monday and ends July 23.

"Computer Uses in Education," a seminar running the first half of summer session, June 23-July 23, is acquainting school administrative personnel with computers and how they can serve the school district.

Other programs in education during the same time include a seminar examining the psychological characteristics of the disabled, a demonstration program for elementary teachers and administrators to observe a class of elementary grade pupils, and a course in conservation education.

Two workshops for librarians and teachers will explore library materials, including films and their uses in junior and senior high schools.

A fine arts workshop, the "Manhattanville Music Curriculum Program," slated for June 23-July 3, is providing practical experience in contemporary musical concepts and learning processes for music education.

more

Other fine arts programs beginning this week include the opera workshop, a workshop in theater and the Masquer Summer Theater.

A special five-day course in business education, "Secondary School Curriculum Development in Data Processing," is being presented through Friday.

Dr. Walter C. Schwank is UM Summer Session director.
